CAX download manager – Your information archive

- With the **CAX-Download-Manager** you have a simple access to up-to-date product data for your CAD or CAE system.
- Configure **your own download cart with a few clicks**.
- You can choose among
 1. product images, 2-dimensional drawings, 3-dimensional models,
 2. circuit diagrams, EPLAN macro files
 3. manuals, characteristics, operating instructions, certificates and product master data

Benefit: Searching for product-specific Cax data can be very time-consuming. Now, you can configure your product-specific CAX-Download-Manager cart with only a few mouse-clicks.

We compile your individual download package for you!

My Documentation Manager

Compile Your Individual Documentation

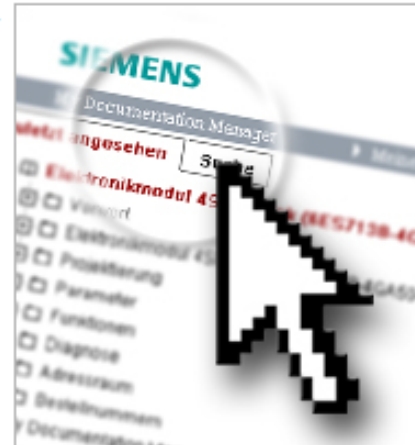

Description

My Documentation Manager offers you to compile your own documentation from our standard documents (manuals) available in the Product Support section.

Start My Documentation Manager

My documentation manager
Example for a customized manual

www.siemens.com/mydocumentationmanager

"My documentation Manager" is an online service for customizing existing manuals to your individual requirements by combining or rearranging manuals, chapters or text blocks even in different languages.

Benefits

1. You can **compile your manual** to include all information in **all available languages** that you have selected at random.
2. You can give the manual a **customized layout**.
3. You can **subscribe to an update service** so that all parts of the documents you have incorporated into your personalized **manual will be updated automatically in case of changes**.

The screenshot displays the Siemens My Documentation Manager interface in a browser. The left sidebar shows a tree view of document sections, with 'Mounting the HMI device' highlighted. The main content area contains a list of steps for installation, a diagram showing a mounting clamp being inserted into a device, and a 'Notice' section. A language selection dropdown is open on the right, showing options for German, English, French, Spanish, Italian, and Chinese.

Any questions?
