# PARTNERSHIPS POWERING C&E PNEUMATIC SOLUTIONS

## COMPACT AIR CYLINDERS

Low breakaway pressure. Permanently lubricated internal bearing.

## PNEUMATIC BAND CYLINDERS

Adjustable cushions. Adjustable load carrying bracket. Rubber dust band seal.

## PNEUMATIC TUBING, HOSE & ACCESSORIES

PU – PE – Nylon – PVC – PTFE – FEP, Bonded Polyurethane tubing & spiral.

## SWIFTFIT UNIVERSAL THREAD FITTINGS

Compatible with metric & imperial threads: NPT, BSPP or G, BSPT or Rc.

## NFPA & ISO CYLINDERS

Premier construction. Manufactured in TN, with a 2-5 business day delivery.

## MULTI-SOCKET UNIVERSAL QUICK DISCONNECT

Elite sealing & durability. Works with Industrial, ARO & Truflate plugs.

## INFINITY AIRLINE SYSTEM

Innovative aluminum tubing system. All metal fittings. "Lock & Seal" design.

## IB-CYCLONE & FRZB

Auto drain. Superior water separation. Greater than 99% performance. Maintenance free.

## BC SERIES CYLINDERS

Lightweight, compact, competitively priced cylinders, with industry leading lifecycle. Over 100 variations.

## SHOCK ABSORBERS

Patented linear orifice design. Faster cycle times, with less cylinder / tooling wear & tear. In a wide variety.

## NON-CONTACT VACUUM CUP

Holds porous or uneven workpieces. Won't mark or damage parts.

## PULSE AIR UNIT

Superior part cleaning, cooling & drying. No electricity required. Reduces air consumption up to 50%.

## FULL PRODUCT LINE

FRLs, Valves, Cylinders and Accessories.

## DYNAMAX VALVE MANIFOLDS

Compact, rugged build. Aluminum body. Flexible interface, 25 or 37 pin D-sub, Remote I/O.

The C&E Solutions Center does custom assemblies, including kits with a single part number, for fast and easy ordering. We also perform pneumatic air preparation and valve manifold builds.

We've got your back, before and after business hours! Our expertise can help you avoid downtime and loss of production.
